Event Outline

With the constantly changing rules related to taxation of multinational companies, it can sometimes be hard to keep up with all the developments. As the global taxation landscape changes, so does the Korean tax rules. We invite you to join Scott Oleson, Tax Partner with Deloitte Korea, to discuss the most recent developments in Korean taxation including corporation tax law changes for 2019 effecting multinational companies operating in Korea, expanded VAT reporting requirements for digital/cloud based businesses, and an update on recent aggressive tax audit trends. We will also discuss the recent revisions in reporting requirements for financial assets held overseas which may impact members of the ECCK.
